

Tubenology Audio

Enhance the Ultimate Performance

Crystal 1

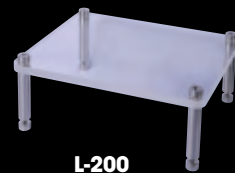

Crystal 2

Ultimate HiFi Racking System

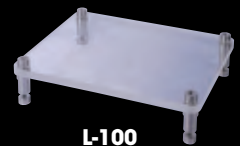

The structural concept is functional, simple in design and effective. The shelf consists of a quadrangular design, noticeably rounded without corners forming a smooth, graceful profile that gives continuity to its aesthetic and practical features. The shelf is 25mm thick, 480mm deep (front to back) and 600mm wide ; capable of accommodating most audio and A/V components including High-End products.

Accessories

Stainless Steel isolation spikes and coasters, also available separately, will become a fundamental part of your audio system.

For the enthusiast Tubenology Audio has designed a set of stainless steel isolation spikes and coasters. The isolation spikes can be used with all other makes of tables and with any electronics and speakers. The wide surface of the isolation spikes and the superior disc shape allow for an effective discharge of vibrations resulting on considerably improved performance.
